Juan Carlos Cangiano

Freelance Frontend Web Developer
London, United Kingdom

Extracto

I have worked in frontend with AngularJS, Angular 7, Bootstrap and Metronic. In backend I have worked with C# adapting the Stored Procedure of the Database with the frontend. And in Database I have done basic SP in Oracle.

I'm focused on the frontend side with Angular.

I consider myself an experienced junior-level developer and a proactive person who likes to learn and work as a team.
